

## Vol.5, no.2

### **Mission Statement**

This journal of ecocriticism, founded in 2010, is a joint initiative of GIECO (Ecocritical Research Group in Spain) and EASLCE (European Association for the Study of Literature, Culture and Environment) and is published by the University of Alcalá as of 2014. Its principal aim is to further the study, knowledge and public awareness of the connections and relationship between literature, culture and the environment. As a virtual space, it provides a site for dialogue between researchers, theorists, creative writers and artists concerned with and by the environment and its degradation. Its pages are open to contributions on all literatures and cultures, but its special mission is to reflect the cultural, linguistic and natural richness and diversity of the European continent.

Contributions, which are subject to double-blind peer review, are accepted in five languages, in order to increase visibility and broaden the participation of scholars who are not part of the English-speaking world. *Ecozon@* publishes original research articles, in addition to creative writing, visual arts and book reviews. Publication is open to scholars interested in ecocriticism from around the world. We recommend membership of EASLCE to our contributors and readers, but it is not a requirement for either.

*Ecozon@* is currently indexed in MLA, OAI, DOAJ and Latindex.
